

What is claimed is:

1. A protective garment comprising:
  - a) an integrally formed garment body of a liquid impermeable material having an inner surface with a first portion and a second portion;
  - 5 b) an absorptive device associated with the first portion of the integrally formed garment body; and
  - c) fibers affixed to at least a part of the inner surface of the second portion of the integrally formed garment body.
- 10 2. A protective garment according to claim 1, wherein the fibers are affixed to the inner surface of the integrally formed garment body except for a section of the garment body associated with the absorptive device and proximate to the portion of the garment body associated with the absorptive device.
- 15 3. A protective garment according to claim 1, wherein said second portion is formed with multiple perforations to permit passage of perspiration therethrough.
4. A protective garment according to claim 1, wherein said first portion is not substantially perforated, so as to prevent passage of body fluids therethrough.
- 20 5. A protective garment according to claim 1, wherein the integrally formed garment body has an outer surface, and further comprises fibers affixed to at least a portion of the outer surface of the integrally formed garment body.

6. A protective garment according to claim 1, wherein the liquid impermeable material is rubber.

5 7. A protective garment according to claim 1, wherein the fibers are cotton.

8. A protective garment according to claim 1, wherein the first portion extends beyond said absorptive device.

10 9. A protective garment according to claim 1, wherein the garment is a body-tight seamless garment.

10. The protective garment of claim 1, wherein the garment is an undergarment.

15

11. The protective garment of claim 10, wherein said undergarment is underpants.

12. The protective garment of claim 10, wherein said undergarment is a brassiere.

20

13. The protective garment of claim 1, wherein the garment is a dressing.

14. The protective garment of claim 13, wherein the dressing is a bandage.

15. The protective garment of claim 13, wherein the dressing is a nursing pad.

5           16. The protective garment of claim 1, wherein the liquid impermeable material is a natural elastomer.

17. The protective garment of claim 1, wherein the liquid impermeable material is a synthetic elastomer.

10

18. The protective garment of claim 1, wherein the liquid impermeable material and/or the fibers comprise at least one pigment, dye, or a combination thereof.

19. The protective garment of claim 1, wherein the liquid impermeable  
15 material and/or the fibers comprise at least one fragrance.

20. The protective garment of claim 1, further comprising an embossed design or pattern.

20           21. The protective garment of claim 1, wherein the garment further comprises a connector and tubing connected to the garment body by the connector.

22. The protective garment of claim 21, wherein the connector is associated with an absorptive material.

23. The protective garment of claim 21, wherein the tubing can absorb or  
5 transport fluids away from the body.

24. The protective garment of claim 21, wherein the tubing can transmit liquid to the body.

10 25. The protective garment of claim 21, wherein the connector is integrally formed with the dressing body.

26. The protective garment of claim 21, wherein the connector is separate from, but attached to, the dressing body.

15

27. The protective garment of claim 21, wherein the garment is an undergarment or a dressing.

28. The protective garment of claim 21, wherein the connector is composed of  
20 a liquid impermeable material, wherein the liquid impermeable material is a natural elastomer or a synthetic elastomer.
